RICE GOT VERDICT

DAMAGES FOR $1,341.85 ASSESSED BY JURY.

PRICE SUIT ON TRIAL

City is Defendant in Bad Sidewalk Damage Suit—Dr. Neely Not to Be Tried for Bigamy This Term.

The damage suit of Mrs. Laura Price against the city for $2,500 for injuries she alleged she sustained as a result of a fall on a bad crossing on South Fillmore street, was being tried Thursday in circuit court. The accident occurred last November.

The suit is being hotly contested by the city by its attorney, W. E. Wiles. Mrs. Price is represented by Cook, Cummins & Dawson. A large number of witnesses are in the case.

The jury that is hearing the case is composed of Jacob B. Moore, Lewis King, Lowell Campbell, J. R. Turner, Frank Tarpley, Charles Coleman, John Allen, J. F. Lager, Roland Moss, L. O. Guisinger, Elias Klaas and Charles Yahrmark.

The testimony in the Price case was concluded this afternoon, and then the attorneys argued the case to the jury. The case will be given to the jury late this afternoon.

The jury that heard the case of Robert L. Rice et al. vs. Enos B. Sheldon et al. on a note, returned a verdict Wednesday afternoon for the plaintiffs and assessed the damages at $1,341.85.

Ezra F. Reisner et al. vs. Sherman Bennett et al., on notes, the defendant defaulted and judgment for $339.26 for the plaintiff.

The criminal case of the state against Dr. J. E. Neely, the Elmo physician charged with bigamy, was continued at application and cost of the defendant. The case will be docketed for the June term of circuit court, but as there are no jury cases at this term it will then probably go over until the November term of court. The reason, it is given out, that the case was continued was due to sickness in the Elmo community, and as Dr. Ferguson is unable to practice, as he is in ill health, Dr. Neely is the only physician there, and it is necessary for him to be there every day. Many people of that community requested that the case go over.

Death of Graham Child.

Mr. and Mrs. Alex Harrison, living about three miles northeast of Graham, are bereaved of their 2-year-old daughter, whose death occurred Wednesday night in a hospital in St. Joseph. The little girl was taken sick Saturday night, and Wednesday morning the parents, accompanied by Mrs. Harrison's sister, Miss Maud Maurer, took the child to St. Joseph for treatment. The body will be brought to Graham Thursday evening. Funeral services will be held Friday afternoon at 1 o'clock.

Operation on Little Girl.

Dr. C. T. Bell performed an operation Tuesday on Louise Peery, the 7-year-old daughter of Mr. and Mrs. M. A. Peery, made necessary by a long illness of pneumonia. An abscess formed on one lung, and in order to properly lance it an inch of one rib was removed. A rubber tube has been inserted to drain the abscess, and when the inflammation has ceased the piece of rib will be inserted in its proper place. The little girl was resting nicely Thursday and her complete recovery is expected.

Jefferson Township Farmers Are Getting Ready for an Unusual Farming Season.

Farmers in the vicinity of Clyde are looking for a great year in farming the coming season. Proctor & Graham, the hardware merchants of Clyde, have sold $10,000 worth of farm machinery since the 7th of February.

Frank Weiderholt & Sons and Herman Lager, farmers near Clyde, have each purchased of this firm a Big Four 20-40 gas traction engine; also a 33-50 Reeves separator.

NORMAL VS. TARKIO TONIGHT.

Championship Game at Normal Gym—Warrensburg Five Are Conference Champs.

The Warrensburg state normal basket ball team cinched the conference basket ball title Wednesday night when they decisively beat the Tarkio college five by a score of 65 to 26. Although the local Normal is a member of the Missouri conference they have not played enough conference basket ball teams to get a place in the standing.

However, the locals and Tarkio will battle tonight at the Normal gymnasium for the amateur basket ball championship of Northwest Missouri. The game will begin at 8:30 o'clock. Tarkio defeated the Normals at Tarkio earlier in the season, and if the teachers win tonight—and they expect to—the deciding game will be staged here Friday night.

Postmen Can't "Keep Up Appearances" on $720, Senate Decides.

That a man cannot live on $720 a year and "keep up appearances," was the decision of the senate at Washington this week, when it ocerturned its postoffice committee, voted out all $720 salaries for postal clerks and mail carriers and accepted the $800 minimum salary previously fixed by the house.

The decision came at the end of a fight in which the advocates of higher government salaries clashed repeatedly with those who declared the working men of the country had to "pay the bill."

For the first year mail carriers received $600, and after that $720 a year. Now it is proposed to raise it to $800.

Mr. and Mrs. D. T. Dalrymple of Hopkins were Maryville business visitors Wednesday.

WHOSE PICTURE?

CAN YOU TELL WHOSE FACE IS PORTRAYED IN AD?

ONLY CLEW TO IDENTITY

Owner of Watch is Sought by Jewelers and the Picture Was Pasted in the Back of the Case.

Look at Raines Bros.' advertisement today and see if you are able to recognize the face of the young woman whose likeness appears there.

The picture was taken from a watch that was left at Raines' Bros.' store a few months ago to be repaired. The jeweler who took the work could not remember who it was that left it and had made no record of the order. The watch was repaired and sent to the person to whom it was thought it belonged, but it was returned with a full description of the one that was left by that person for repair.

Several people to whom this picture was shown by Mr. Raines, who is endeavoring to find the owner of the watch, say they have seen the young woman in Maryville, but cannot think of her name. It is thought by several that she has been a student at the Northwest Normal.

Do you know who she is?

RETURNED FROM JEFF. CITY.

George B. Baker, Asylum Board Member Back From Capital—First Meeting in March.

George B. Baker, who was appointed Monday by Governor Major as a member of the board of managers of the state hospital at St. Joseph, returned Wednesday night from Jefferson City, where he was in conference with Governor Major. The first meeting of the new board will be held next Thursday at St. Joseph.

Mr. Baker said that Senator Anderson Craig of Nodaway county is one of the biggest senators in the senate at Jefferson City, and that he is known as the hardest working man in that body. Craig's county unit bill stands a good show to pass the senate, said Mr. Baker, and all of the wet interests are scared and are working very hard to defeat the bill in the committee.

Governor Major intimated to Mr. Baker that he would not appoint his board of regents of the State Normal until the latter part of next week, after his return from Washington, where he will attend the inauguration of President Wilson.

Mr. Baker, while in Jefferson City, was a guest at a banquet in Ex-Senator Humphrey's honor, which was given by Senator Francis Wilson.

INTER-SOCIETY DEBATE.

Debaters of Two Normal Societies Will Discuss Panama Question Tonight.

Tonight at the Normal will take place the first inter-society debate. The question for discussion will be "Resolved, that American coastwise vessels should pass through the Panama canal duty free." The affirmative will be discussed by C. G. Harrell and Ray Hart, representing the Philomathean society, while Lawrence Zeliff and Verne Gaddy, representing the Eurekan society, will uphold the negative.

The inter-society debate has been inaugurated as a regular term feature, three terms a year, including the summer term. The prize will be a silver cup, presented by the school.

The exercises will begin promptly at 7:30 o'clock in order to finish before the Normal-Tarkio basket ball game. An invitation is extended the public to attend the debate.

AGRICULTURAL CONGRESS.

At St. Joseph March 6, 7 and 8—To Be a Big Affair.

Kansas, Nebraska, Iowa and Missouri, through their state agricultural colleges, their experiment stations and through their advanced agriculturalists, and the nation at large through some of its most brilliant men, will contribute to the program of the agricultural congress to be held in St. Joseph, March 6, 7 and 8.

Dr. A. Ross Hill, president University of Missouri, will be president of the congress; Gov. J. H. Morehead of Nebraska, H. J. Waters, president of the Kansas Agricultural college, and A. F. Galloway, Clarinda, Ia., are vice presidents.

We understand that in the city of St. Joseph no effort whatever will be made to attract the city people to the great auditorium, which seats 5,000 people.

It is understood that the committee would not have been able to secure the speakers that they have without guaranteeing a farmer audience to talk to. By farmers is meant men engaged in any kind of agriculture, stock raising, orcharding and similar pursuits.

St. Joseph is going to try to show farmers how to lift the mortgages from the farm, how to sell their product at a higher price, increase the production per acre with less labor, how to test seed and know whether it will germinate before being planted, the treatment and prevention of hog cholera, the importance of rural schools and the community life in rural districts, the proper handling of dairy cows, how to grow an orchard and how to take care of it, the importance of the tobacco industry in this section, and various other problems of rural life.

Two well known women orators, who were brought up on farms and are now living on them, will address the audience.

The family of the farmer should by all means attend this congress. They will be deeply interested.

This is the greatest opportunity the farmers of this section of the United States have ever had to gain information in reference to their business, and they cannot afford to miss a single session of this congress.

No charge for admission; no assessment of any kind will be made. Everything that this congress furnishes is free.

DRYS WANT ACTION

DELEGATIONS URGE COMMITTEE TO REPORT BILL.

MAKE ADVERSE REPORT

Committee Believed to Be Unfavorable to County Unit Bill—Craig's White Slave Bill Will Pass.

Jefferson City, Feb. 27.—Delegations of several hundred "drys" from various parts of the state were here Wednesday night before the senate committee urging a report from that body on the Craig county unit bill.

The committee, after the hearing, went into executive session for an hour and then announced that there would be no action on the bill until next week. The Hawkins bill raising the maximum population for towns voting with the rest of the county from 2,500 to 5,000 was also laid over.

The committee also ruled last night that there will be no further hearings on the county unit bill. It is the general belief that the committee will report the bill adversely.

Favorable Report on White Slave Bill.

The house committee on criminal jurisprudence reported favorably the Craig white slave bill, which passed the senate last week.

The Utility Bill Passed.

The Major public service commission bill passed the senate late yesterday afternoon with only five dissenting votes. It will not be ready for signature by Governor Major, however, until the last of next week, as every precaution is being taken to prevent errors creeping into the bill.

The bill passed by the senate yesterday was the senate bill introduced by Senator Busby. Yesterday the house passed the house bill introduced by Colonel Phelps. The bills are exactly alike, but to prevent any possibility of a clerical mistake both bills are to pass both houses instead of substituting one for the other as is the custom.

Both bills will be presented to Governor Major for signature. This precaution is being taken to prevent the possibility of a clerical error. Governor Major will then sign the bill he chooses of the two.

OFFER DISTRICTING BILLS.

Neither Congressional Nor Senatorial Action Expected by the Legislature.

The Republicans have offered a districting bill in Jefferson City. It now seems likely no senatorial districting bill will be passed by the legislature, and the work will be handed down to Governor Major, Secretary of State Roach and Attorney General Barker. The Democrats have no bill on congressional districting.

The proposed senatorial districts under the Republican bill shows Nodaway county to be in the first district with Atchison, Worth, Holt, Andrew and Gentry.

In the congressional bill Nodaway county is in the third district and the other counties are Atchison, Holt, Andrew, Buchanan, Clinton and Platte.

SPRING TERM OPENS MARCH 3.

Winter Term at Normal Will Close Friday—An Increase in the Enrollment.

The winter term of the Normal will close Friday, and final examinations are being conducted all this week. In point of enrollment the semester which comes to an end this week is the most successful winter quarter since the opening of the school.

The spring quarter will open Monday, March 3, and regular class work will begin Tuesday. Although the enrollment for the spring quarter is always the lightest of any of the semesters of the school year, the registration for the coming quarter bids fair to outdo the corresponding semesters of other years.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

GREEN FOR SCHOOLROOM WALL.

Color is Found to Be Most Beneficial to Children's Eyes.

Scientific selection of colors for the walls of schoolrooms to safeguard the school children's eyesight and to increase their mental efficiency was the main topic before the convention of Master House Painters and Decorators' Association recently. The purpose of the discussion was to prepare the master painters for their part in the fight science is making against the ravages of eye diseases among school children.

Green is the color best suited for schoolrooms, declared A. C. Rapp of Pittsburgh.

"The experiments conducted by Dr. L. E. Landom of Los Angeles," he said, "prove beyond doubt that both the eyesight and the mental efficiency of school children can be promoted or impaired by the choice of the colors by which they are surrounded. Red paper on wall or ceilings should never be used. Doctor Landom found, after subjecting ten children to its influence for five hours a day, that it stimulated mental activity 50 per cent for the first hour and that after that it increased the heart action to a dangerous extent and was the cause of severe headaches.

"In continuing his experiments with the other colors he discovered that yellow caused the children to increase their work 50 per cent above the normal and also increased their vitality. Its drawback, however, was that it made them restless and mischievous.

"Green he found to be the ideal color for the study room. It promoted mental activity to its proper pitch, was responsible for more and better work than the other colors, and was the least fatiguing on the eyes and the nervous system. For the hospital the most soothing effect is obtained by light gray tints."

Pictures of Memory.

Among the beautiful pictures
That hang on Memory's wall
Is one of a dim old forest,
That seemeth best of all;
Not for its gnarled oaks olden,
Dark with the mistletoe;
Not for the violets golden
That sprinkle the vale below;
Not for its milk white lilies,
That lean from the fragrant ledge,
Coquetting all day with the sunbeams,
And stealing their golden edge;
Not for the vines on the upland,
Where the bright red berries rest,
Nor the pinks nor the pale sweet cowslips,
It seemeth to me the best.

I once had a little brother,
With eyes that were dark and deep;
In the lap of that old, dim forest
He lieth in peace, asleep;
Light as the down of the thistle,
Free as the winds that blow,
We roved there the beautiful summers,
The summers of long ago.
But his feet on the hills grew weary,
And one of the autumn eves
I made for my little brother
A bed of the yellow leaves.
Sweetly his pale arms folded
My neck in a meek embrace,
As the light of immortal beauty
Silently covered his face.
And when the arrows of sunset
Lodged in the treetops bright,
He fell, in his saint like beauty,
Asleep by the gates of light.
Therefore; of all the pictures
That hang on Memory's wall,
The one of the dim old forest
Seemeth the best of all.

Mrs. F. P. Robinson gave a kensington and luncheon Wednesday afternoon for the pleasure of Miss Lela Chilton of St. Joseph, who is the guest of her aunt, Mrs. James B. Robinson. An impromptu program of piano and vocal numbers was given at various times during the afternoon by Miss Chilton, Mrs. Ferdinand Townsend, Miss Mae Orear, Miss Carrie Margaret Baker, Mrs. Charles S. Jackson and the hostess and her daughter, Miss Mildred Robinson, who sang a duet. Mrs. Robinson was assisted in serving the luncheon by Miss Carrie Margaret Baker and Miss Mildred Robinson. The favors were crystal baskets of sweet peas, corresponding with the decorations. The day was one of the stormiest of the year, but the enjoyment of the afternoon more than repaid the guests for the trip through the storm. The guest list included Miss Chilton, Mrs. J. B. Robinson, Mrs. E. F. Wolfert, Mrs. George B. Baker, Miss Carrie Margaret Baker, Mrs. Charles S. Jackson, Miss Elise Jackson, Mrs. Luther Forsyth, Mrs. Ralph W. Eversole, Mrs. G. L. Wilfley, Miss Mae Orear, Miss Laura Barmann, Miss Marie Brink, Mrs. Ferdinand Townsend, Mrs. C. C. Graves, Mrs. W. A. Rickenbrode, Mrs. J. F. Colby, Mrs. J. D. Richey, Mrs. M. L. Beattie, Mrs. V. I. Moore.

D. A. R. at Jefferson City.

Mrs. Anderson Craig writes of the principal social event at Jefferson City, given by the Daughters of the American Revolution of that city, and we believe Maryville people would like to read the letter, especially since Maryville has such a flourishing chapter. Mrs. Craig says of the affair, which was given in celebration of Washington's birthday:

"On Saturday evening, February 22, what is here justly considered the social event of the season, occurred when the ladies composing the Jefferson City chapter of the Daughters of the American Revolution, entertained their friends, husbands and sweethearts at the governor's mansion.

"Could the beloved Washington have awakened from his long sleep, he might have been astonished and somewhat amused at the brilliant heterogeneous scene presented. He might have once more beheld himself in the flesh, as Governor Major, in faultless evening clothes and most becoming Washington wig, with charming grace and dignity, led bright-eyed colonial dames and damsels in the long unused and almost forgotten lancers, minuets and old Virginia reels, assisted by many twentieth century gentlemen in evening garments and unpowdered hair. He might have puzzled over the decorations of Old Glory, draped and festooned everywhere, with their innumerable stars shining in fields of blue, like new found constellations, which in other days he knew not of. He might have passed slowly along the receiving line, side by side with senators, representatives, Jeffersonians, and their wives, men and women of today, and shaken hands seemingly over a lapse of a century, with the bewitching granddames and daughters—fair representatives of his one-time friends and contemporaries. And yet, his blue gray eye might have twinkled humorously as he beheld the stylish costumes of the sixties and seventies, and even eighties, mingling with the brocaded grandeur of his day, and the elegant silks and laces of the present, in a scene of brilliancy not soon to be forgotten. He might have paused a moment at the open doorway of the elegant dining room to view the lovely flowers that adorned the center of the table, around which stood a number of miniature George Washingtons, at whose feet lay little hatchets, fresh from their untoward attack upon the old historic cherry tree. And when this pleasant evening was well spent, he might, with good St. Paul, and also with many of the rest of us who were present, have exclaimed, "Whether I am in the body or out of the body, I know not."

P. S.—Whether I am a Daughter of the Revolution or a daughter in the revolution tonight I hardly yet can tell. My, oh, my; but things are going here.

Diseases in Animals.

Public health as applied to sanitary conditions under which people live has been frequently brought to the attention of the people. Up to this time very little has been said regarding the sanitary conditions in which domestic animals should live. Many of the diseases which seriously affect the human being are kept alive by domestic animals and are transmitted from them to man. It is natural, then, that these diseases cannot be prevented in man unless they are prevented in the domestic animals that bring them to man. Because of this fact some of our common diseases are becoming known as rural diseases. If more attention were paid to our domestic animals, the animals themselves would fare better, it would be more economical, and some reduction in human diseases would be brought about.

Says the Corn Man.

Sam Jordan says: "Are you the chap who says, 'This town is run by a click?' If so, you measley dub, why don't you get into the 'click' and scrap, and be a good Indian? Clean up that dirty 'click,' and throw the refuse to the scrap heap. The chances are that all you do is to growl, grumble and get sore, and bellyache about everybody and everything. If you are that breed of animal, don't you think the country would be better off if you were in heaven or some place? No, we need you, but we do not want you to play dead, but get to the front and scrap like a man for all that is good, right and fair. It has been said that every person is good for something. Have you found yours?"

RICE GOT VERDICT

DAMAGES FOR $1,341.85 ASSESSED BY JURY.

PRICE SUIT ON TRIAL

City is Defendant in Bad Sidewalk Damage Suit—Dr. Neely Not to Be Tried for Bigamy This Term.

The damage suit of Mrs. Laura Price against the city for $2,500 for injuries she alleged she sustained as a result of a fall on a bad crossing on South Fillmore street, was being tried Thursday in circuit court. The accident occurred last November.

The suit is being hotly contested by the city by its attorney, W. E. Wiles. Mrs. Price is represented by Cook, Cummins & Dawson. A large number of witnesses are in the case.

The jury that is hearing the case is composed of Jacob B. Moore, Lewis King, Lowell Campbell, J. R. Turner, Frank Tarpley, Charles Coleman, John Allen, J. F. Lager, Roland Moss, L. O. Guisinger, Elias Klaas and Charles Yakrmark.

The testimony in the Price case was concluded this afternoon, and then the attorneys argued the case to the jury. The case will be given to the jury late this afternoon.

The jury that heard the case of Robert L. Rice et al. vs. Enos B. Sheldon et al. on a note, returned a verdict Wednesday afternoon for the plaintiffs and assessed the damages at $1,341.85.

Ezra F. Reisner et al. vs. Sherman Bennett et al., on notes, the defendant defaulted and judgment for $339.26 for the plaintiff.

The criminal case of the state against Dr. J. E. Neely, the Elmo physician charged with bigamy, was continued at application and cost of the defendant. The case will be docketed for the June term of circuit court, but as there are no jury cases at this term it will then probably go over until the November term of court. The reason, it is given out, that the case was continued was due to sickness in the Elmo community, and as Dr. Ferguson is unable to practice, as he is in ill health, Dr. Neely is the only physician there, and it is necessary for him to be there every day. Many people of that community requested that the case go over.

Death of Graham Child.

Mr. and Mrs. Alex Harrison, living about three miles northeast of Graham, are bereaved of their 2-year-old daughter, whose death occurred Wednesday night in a hospital in St. Joseph. The little girl was taken sick Saturday night, and Wednesday morning the parents, accompanied by Mrs. Harrison's sister, Miss Maud Maurer, took the child to St. Joseph for treatment. The body will be brought to Graham Thursday evening. Funeral services will be held Friday afternoon at 1 o'clock.

Operation on Little Girl.

Dr. C. T. Bell performed an operation Tuesday on Louise Peery, the 7-year-old daughter of Mr. and Mrs. M. A. Peery, made necessary by a long illness of pneumonia. An abscess formed on one lung, and in order to properly lance it an inch of one rib was removed. A rubber tube has been inserted to drain the abscess, and when the inflammation has ceased the piece of rib will be inserted in its proper place. The little girl was resting nicely Thursday and her complete recovery is expected.

Jefferson Township Farmers Are Getting Ready for an Unusual Farming Season.

Farmers in the vicinity of Clyde are looking for a great year in farming the coming season. Proctor & Graham, the hardware merchants of Clyde, have sold $10,000 worth of farm machinery since the 7th of February.

Frank Weiderholt & Sons and Herman Lager, farmers near Clyde, have each purchased of this firm a Big Four 20-40 gas traction engine; also a 33-50 Reeves separator.

Volley Kimmel has purchased a Reeves 33-50 separator, and English & McGinnis have purchased a 20-40 gas traction engine and an international 8-horse engine and wood saw combination.

There will be other heavy purchases made by farmers in this locality, and this firm has two cars of implements on the road and just unloaded one in order to supply orders.

NORMAL VS. TARKIO TONIGHT.

Championship Game at Normal Gym—Warrensburg Five Are Conference Champs.

The Warrensburg state normal basket ball team cinched the conference basket ball title Wednesday night when they decisively beat the Tarkio college five by a score of 65 to 26. Although the local Normal is a member of the Missouri conference they have not played enough conference basket ball teams to get a place in the standing.

However, the locals and Tarkio will battle tonight at the Normal gymnasium for the amateur basket ball championship of Northwest Missouri. The game will begin at 8:30 o'clock. Tarkio defeated the Normals at Tarkio earlier in the season, and if the teachers win tonight—and they expect to—the deciding game will be staged here Friday night.

Postmen Can't "Keep Up Appearances" on $720, Senate Decides.

That a man cannot live on $720 a year and "keep up appearances," was the decision of the senate at Washington this week, when it ocerturned its postoffice committee, voted out all $720 salaries for postal clerks and mail carriers and accepted the $800 minimum salary previously fixed by the house.

The decision came at the end of a fight in which the advocates of higher government salaries clashed repeatedly with those who declared the working men of the country had to "pay the bill."

For the first year mail carriers received $600, and after that $720 a year. Now it is proposed to raise it to $800.

WHOSE PICTURE?

CAN YOU TELL WHOSE FACE IS PORTRAYED IN AD?

ONLY CLEW TO IDENTITY

Owner of Watch is Sought by Jewelers and the Picture Was Pasted in the Back of the Case.

Look at Raines Bros.' advertisement today and see if you are able to recognize the face of the young woman whose likeness appears there.

The picture was taken from a watch that was left at Raines' Bros.' store a few months ago to be repaired. The jeweler who took the work could not remember who it was that left it and had made no record of the order. The watch was repaired and sent to the person to whom it was thought it belonged, but it was returned with a full description of the one that was left by that person for repair.

Several people to whom this picture was shown by Mr. Raines, who is endeavoring to find the owner of the watch, say they have seen the young woman in Maryville, but cannot think of her name. It is thought by several that she has been a student at the Northwest Normal.

Do you know who she is?

ARRESTED AT ST. JOSEPH.

Bernard Muse of Parnell, Indicted by Grand Jury, Now Here for Arraignment.

Bernard Muse of Parnell was arrested at St. Joseph Wednesday, as he was wanted here on several charges, having been indicted by the recent grand jury. There are four charges against Muse, one for keeping a common gaming house, one for gaming and two for violations of the local option law.

NORMAL GIRLS TO CAMERON.

Local Basket Ballers Will Meet Wesleyan Girls Saturday Night.

The girls' basket ball team of the Normal will go to Cameron Saturday morning, where they will play the Missouri Wesleyan college girls Saturday night. The fair ones have been practicing faithfully since their defeat by Amity last week and they hope to make a fair showing against Wesleyan. Miss Hazel Thompson, the Normals' captain and star performer, is a former Wesleyan student and it was there that she learned some of the finer points of the game.

RETURNED FROM JEFF. CITY.

George B. Baker, Asylum Board Member Back From Capital—First Meeting in March.

George B. Baker, who was appointed Monday by Governor Major as a member of the board of managers of the state hospital at St. Joseph, returned Wednesday night from Jefferson City, where he was in conference with Governor Major. The first meeting of the new board will be held next Thursday at St. Joseph.

Mr. Baker said that Senator Anderson Craig of Nodaway county is one of the biggest senators in the senate at Jefferson City, and that he is known as the hardest working man in that body. Craig's county unit bill stands a good show to pass the senate, said Mr. Baker, and all of the wet interests are scared and are working very hard to defeat the bill in the committee.

Governor Major intimated to Mr. Baker that he would not appoint his board of regents of the State Normal until the latter part of next week, after his return from Washington, where he will attend the inauguration of President Wilson.

Mr. Baker, while in Jefferson City, was a guest at a banquet in Ex-Senator Humphrey's honor, which was given by Senator Francis Wilson.

INTER-SOCIETY DEBATE.

Debaters of Two Normal Societies Will Discuss Panama Question Tonight.

Tonight at the Normal will take place the first inter-society debate. The question for discussion will be "Resolved, that American coastwise vessels should pass through the Panama canal duty free." The affirmative will be discussed by C. G. Harrell and Ray Hart, representing the Philomathean society, while Lawrence Zeliff and Verne Gaddy, representing the Eurekan society, will uphold the negative.

The inter-society debate has been inaugurated as a regular term feature, three terms a year, including the summer term. The prize will be a silver cup, presented by the school.

The exercises will begin promptly at 7:30 o'clock in order to finish before the Normal-Tarkio basket ball game. An invitation is extended the public to attend the debate.

AGRICULTURAL CONGRESS.

At St. Joseph March 6, 7 and 8—To Be a Big Affair.

Kansas, Nebraska, Iowa and Missouri, through their state agricultural colleges, their experiment stations and through their advanced agriculturalists, and the nation at large through some of its most brilliant men, will contribute to the program of the agricultural congress to be held in St. Joseph, March 6, 7 and 8.

Dr. A. Ross Hill, president University of Missouri, will be president of the congress; Gov. J. H. Morehead of Nebraska, H. J. Waters, president of the Kansas Agricultural college, and A. F. Galloway, Clarinda, Ia., are vice presidents.

We understand that in the city of St. Joseph no effort whatever will be made to attract the city people to the great auditorium, which seats 5,000 people.

It is understood that the committee would not have been able to secure the speakers that they have without guaranteeing a farmer audience to talk to. By farmers is meant men engaged in any kind of agriculture, stock raising, orcharding and similar pursuits.

St. Joseph is going to try to show farmers how to lift the mortgages from the farm, how to sell their product at a higher price, increase the production per acre with less labor, how to test seed and know whether it will germinate before being planted, the treatment and prevention of hog cholera, the importance of rural schools and the community life in rural districts, the proper handling of dairy cows, how to grow an orchard and how to take care of it, the importance of the tobacco industry in this section, and various other problems of rural life.

Two well known women orators, who were brought up on farms and are now living on them, will address the audience.

The family of the farmer should by all means attend this congress. They will be deeply interested.

This is the greatest opportunity the farmers of this section of the United States have ever had to gain information in reference to their business, and they cannot afford to miss a single session of this congress.

No charge for admission; no assessment of any kind will be made. Everything that this congress furnishes is free.

DRYS WANT ACTION

DELEGATIONS URGE COMMITTEE TO REPORT BILL.

MAKE ADVERSE REPORT

Committee Believed to Be Unfavorable to County Unit Bill—Craig's White Slave Bill Will Pass.

Jefferson City, Feb. 27.—Delegations of several hundred "drys" from various parts of the state were here Wednesday night before the senate committee urging a report from that body on the Craig county unit bill.

The committee, after the hearing, went into executive session for an hour and then announced that there would be no action on the bill until next week. The Hawkins bill raising the maximum population for towns voting with the rest of the county from 2,500 to 5,000 was also laid over.

The committee also ruled last night that there will be no further hearings on the county unit bill. It is the general belief that the committee will report the bill adversely.

Favorable Report on White Slave Bill.

The house committee on criminal jurisprudence reported favorably the Craig white slave bill, which passed the senate last week.

The Utility Bill Passed.

The Major public service commission bill passed the senate late yesterday afternoon with only five dissenting votes. It will not be ready for signature by Governor Major, however, until the last of next week, as every precaution is being taken to prevent errors creeping into the bill.

The bill passed by the senate yesterday was the senate bill introduced by Senator Busby. Yesterday the house passed the house bill introduced by Colonel Phelps. The bills are exactly alike, but to prevent any possibility of a clerical mistake both bills are to pass both houses instead of substituting one for the other as is the custom.

Both bills will be presented to Governor Major for signature. This precaution is being taken to prevent the possibility of a clerical error. Governor Major will then sign the bill he chooses of the two.

OFFER DISTRICTING BILLS.

Neither Congressional Nor Senatorial Action Expected by the Legislature.

The Republicans have offered a districting bill in Jefferson City. It now seems likely no senatorial districting bill will be passed by the legislature, and the work will be handed down to Governor Major, Secretary of State Roach and Attorney General Barker. The Democrats have no bill on congressional districting.

The proposed senatorial districts under the Republican bill shows Nodaway county to be in the first district with Atchison, Worth, Holt, Andrew and Gentry.

In the congressional bill Nodaway county is in the third district and the other counties are Atchison, Holt, Andrew, Buchanan, Clinton and Platte.

SPRING TERM OPENS MARCH 3.

Winter Term at Normal Will Close Friday—An Increase in the Enrollment.

The winter term of the Normal will close Friday, and final examinations are being conducted all this week. In point of enrollment the semester which comes to an end this week is the most successful winter quarter since the opening of the school.

The spring quarter will open Monday, March 3, and regular class work will begin Tuesday. Although the enrollment for the spring quarter is always the lightest of any of the semesters of the school year, the registration for the coming quarter bids fair to outdo the corresponding semesters of other years.

Death of Invalid Baby.

The funeral services were held Thursday afternoon at the Presbyterian church in Graham, burial in Odd Fellows cemetery. The baby had been sick all its life.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

GREEN FOR SCHOOLROOM WALL.

Color is Found to Be Most Beneficial to Children's Eyes.

Scientific selection of colors for the walls of schoolrooms to safeguard the school children's eyesight and to increase their mental efficiency was the main topic before the convention of Master House Painters and Decorators' Association recently. The purpose of the discussion was to prepare the master painters for their part in the fight science is making against the ravages of eye diseases among school children.

Green is the color best suited for schoolrooms, declared A. C. Rapp of Pittsburgh.

"The experiments conducted by Dr. L. E. Landom of Los Angeles," he said, "prove beyond doubt that both the eyesight and the mental efficiency of school children can be promoted or impaired by the choice of the colors by which they are surrounded. Red paper on wall or ceilings should never be used. Doctor Landom found, after subjecting ten children to its influence for five hours a day, that it stimulated mental activity 50 per cent for the first hour and that after that it increased the heart action to a dangerous extent and was the cause of severe headaches.

"In continuing his experiments with the other colors he discovered that yellow caused the children to increase their work 50 per cent above the normal and also increased their vitality. Its drawback, however, was that it made them restless and mischievous.

"Green he found to be the ideal color for the study room. It promoted mental activity to its proper pitch, was responsible for more and better work than the other colors, and was the least fatiguing on the eyes and the nervous system. For the hospital the most soothing effect is obtained by light gray tints."

Pictures of Memory.

Among the beautiful pictures
That hang on Memory's wall
Is one of a dim old forest,
That seemeth best of all;
Not for its gnarled oaks olden,
Dark with the mistletoe;
Not for the violets golden
That sprinkle the vale below;
Not for its milk white lilies,
That lean from the fragrant ledge,
Coquetting all day with the sunbeams,
And stealing their golden edge;
Not for the vines on the upland,
Where the bright red berries rest,
Nor the pinks nor the pale sweet cowslips,
It seemeth to me the best.

I once had a little brother,
With eyes that were dark and deep;
In the lap of that old, dim forest
He lieth in peace, asleep;
Light as the down of the thistle,
Free as the winds that blow,
We roved there the beautiful summers,
The summers of long ago.
But his feet on the hills grew weary,
And one of the autumn eves
I made for my little brother
A bed of the yellow leaves.
Sweetly his pale arms folded
My neck in a meek embrace,
As the light of immortal beauty
Silently covered his face.
And when the arrows of sunset
Lodged in the treetops bright,
He fell, in his saint like beauty,
Asleep by the gates of light.
Therefore; of all the pictures
That hang on Memory's wall,
The one of the dim old forest
Seemeth the best of all.

A quiet home wedding took place Wednesday evening at 8 o'clock, at the home of Mr. and Mrs. L. C. Penelope Club Meeting.

Mrs S. J. DeArmond entertained the Penelope club Wednesday afternoon at its regular meeting. There was a good attendance of the members, notwithstanding the inclemency of the weather. During the social time after the usual work, the guests were profitably entertained with a fine assortment of views from Honolulu, recently received by the hostess from her son, George DeArmond, who is in the U. S. army service there. Mrs. DeArmond served a very nice luncheon. There were two visitors, Mrs. James Rowell of Des Moines, Ia., a daughter of the hostess, who is visiting here, and Mrs. Earl Fisher of Wichita, Kan., the guest of her parents, Mr. and Mrs. J. T. Moore.

D. A. R. at Jefferson City.

Mrs. Anderson Craig writes of the principal social event at Jefferson City, given by the Daughters of the American Revolution of that city, and we believe Maryville people would like to read the letter, especially since Maryville has such a flourishing chapter. Mrs. Craig says of the affair, which was given in celebration of Washington's birthday:

"On Saturday evening, February 22, what is here justly considered the social event of the season, occurred when the ladies composing the Jefferson City chapter of the Daughters of the American Revolution, entertained their friends, husbands and sweethearts at the governor's mansion.

"Could the beloved Washington have awakened from his long sleep, he might have been astonished and somewhat amused at the brilliant heterogeneous scene presented. He might have once more beheld himself in the flesh, as Governor Major, in faultless evening clothes and most becoming Washington wig, with charming grace and dignity, led bright-eyed colonial dames and damsels in the long unused and almost forgotten lancers, minuets and old Virginia reels, assisted by many twentieth century gentlemen in evening garments and unpowdered hair. He might have puzzled over the decorations of Old Glory, draped and festooned everywhere, with their innumerable stars shining in fields of blue, like new found constellations, which in other days he knew not of. He might have passed slowly along the receiving line, side by side with senators, representatives, Jeffersonians, and their wives, men and women of today, and shaken hands seemingly over a lapse of a century, with the bewitching granddames and daughters—fair representatives of his one-time friends and contemporaries. And yet, his blue gray eye might have twinkled humorously as he beheld the stylish costumes of the sixties and seventies, and even eighties, mingling with the brocaded grandeur of his day, and the elegant silks and laces of the present, in a scene of brilliancy not soon to be forgotten. He might have paused a moment at the open doorway of the elegant dining room to view the lovely flowers that adorned the center of the table, around which stood a number of miniature George Washingtons, at whose feet lay little hatchets, fresh from their untoward attack upon the old historic cherry tree. And when this pleasant evening was well spent, he might, with good St. Paul, and also with many of the rest of us who were present, have exclaimed, "Whether I am in the body or out of the body, I know not."

P. S.—Whether I am a Daughter of the Revolution or a daughter in the revolution tonight I hardly yet can tell. My, oh, my; but things are going here.

Diseases in Animals.

Public health as applied to sanitary conditions under which people live has been frequently brought to the attention of the people. Up to this time very little has been said regarding the sanitary conditions in which domestic animals should live. Many of the diseases which seriously affect the human being are kept alive by domestic animals and are transmitted from them to man. It is natural, then, that these diseases cannot be prevented in man unless they are prevented in the domestic animals that bring them to man. Because of this fact some of our common diseases are becoming known as rural diseases. If more attention were paid to our domestic animals, the animals themselves would fare better, it would be more economical, and some reduction in human diseases would be brought about.

Mrs. Lillie Lund of Arkoe was a Maryville visitor Thursday.

Says the Corn Man.

Sam Jordan says: "Are you the chap who says, 'This town is run by a click?' If so, you measley dub, why don't you get into the 'click' and scrap, and be a good Indian? Clean up that dirty 'click,' and throw the refuse to the scrap heap. The chances are that all you do is to growl, grumble and get sore, and bellyache about everybody and everything. If you are that breed of animal, don't you think the country would be better off if you were in heaven or some place? No, we need you, but we do not want you to play dead, but get to the front and scrap like a man for all that is good, right and fair. It has been said that every person is good for something. Have you found yours?"
